Representing You in Congress & Delivering for the District

BRINGING HOME More Than \$27 million for the District

I am proud to have secured **\$27.1 million in Community Project Funding** since being elected to Congress that will have a **direct benefit to families across the district**. Crucial funding from this year will help with infrastructure improvements like revamping roadways, bike lanes, and pedestrian paths; upgrading public transportation including new *SamTrans* bus shelters and *Caltrain* grade separations; expanding child care and preschool services; and much more.

▲ Congressman Mullin delivered \$1.2 million in federal funds to help renovate the City of San Mateo's Lakeshore Community Center.

DEFENDING Our Democracy

One of my top priorities is protecting our democracy. As **co-chair of the House Task Force on Strengthening Democracy**, I'm working to defend voting rights and crack down on voter suppression tactics. I firmly believe that **Congress must serve as a check on the president**, and that your taxpayer dollars should be used to lower costs and make your life better here at home, not to engage in regime change overseas or brutalize and kill U.S. citizens on our streets.

FIGHTING for a More Affordable California

Costs are skyrocketing for families across America. That's why I'm fighting cuts to essential services like health care, education, and child care. I recently **co-led legislation to lower utility costs** and introduced a bill to **address the housing crisis and spur transit-oriented housing that families can afford**.

SAFEGUARDING Communities

Emergency alerts can save lives when used properly, that's why I **introduced the REACT Act** to strengthen local warning systems. I'm also pushing for **increased funding for FEMA Urban Search & Rescue task forces**, and introduced three bills to improve pedestrian safety and oversight of driverless cars to ensure we're safe on the road.

HEARING Directly from You

Speaking directly with neighbors and hosting town halls is very important to my work. In January, I partnered with legal experts for an emergency forum on ICE and the deadly shootings in Minneapolis. I'm **hosting another town hall in April**, and will hold more digital and in-person events throughout the year.
